Permaculture in Malawi – from famine to abundance
Friday 7th August 2–3 pm on Zoom

Join ACAN for an inspiring talk about how permaculture can restore land ravaged by climate change and transform lives from poverty to prosperity.

Please email altonclimatenetwork@gmail.com for a Zoom invitation

- **Luwayo Biswick from the Permaculture Paradise Institute** will talk from Malawi about the farm he and his wife set up in 2017. Read his powerful personal story here <https://www.permacultureinstitutemw.org/job-opportunities/> The Permaculture Paradise Institute “is a 56-acre farm flourishing with a diversity of crops, trees, fruits and vegetables. The farm [...] is a wonder and refuge to many people, over 200 types of food crops, both indigenous and exotic, suitable to the conditions of the area, are grown there. Many people visit the farm to both admire and learn the farming practices or buy the farm produce. (Source: The Daily Times, Malawi 28th May, 2020). <http://www.neverendingfood.org/permaculture-paradise-institute/>
- **John Vidal will introduce the Gumbi Education Fund** in Malawi <http://www.gumbieducationfund.org.uk>, which plans to send four young people for training at the Permaculture Paradise Institute, so that they can train others in the Gumbi villages to shift from monoculture maize to multicrop permaculture, to overcome the devastation caused by climate change.

The Gumbi Education Fund is ACAN’s adopted charity. We are supporting the training of young people from the Gumbi villages.

You can help by donating, see <https://altonclimatenetwork.org.uk/donate/> please mention GUMBI.
