

## ***Plastic Pollution is getting worse – what can we do?***

***Join us on Zoom on Thursday  
6<sup>th</sup> August at 7:30pm***

***Email for an invitation***

**[altonclimatenetwork@gmail.com](mailto:altonclimatenetwork@gmail.com)**

It is an unfortunate knock on effect of the need for more effective protection from infection that we are using a lot more single use plastic.

We cannot do anything about that, but we can make sure we dispose of PPE and all waste carefully.

When ACAN hit the street fairs in 2019 with our Plastics Awareness Campaign our chief slogan was:

***“There is no Away!”***

And yet we are still transporting much of our waste overseas – out of sight out of mind!

So we in ACAN are joining forces with other campaigners from Binsted and Farnham for another concerted campaigning effort to:

- Raise awareness of the problem

- Compile a “Green Directory” of recycling and refill opportunities locally
- Run litter picking sessions
- Produce educational materials like Powerpoint presentations to share with community groups
- Lobby commercial and political leaders to up their game on waste generation and disposal

The group is asking interested people to come along and bring their own ideas to the table.

So please do join us for an online discussion on:

Thursday 6<sup>th</sup> August at 7:30pm

Just email [altonclimatenetwork@gmail.com](mailto:altonclimatenetwork@gmail.com) for a link to the zoom meeting.

If you cannot make the meeting but would like to keep up to date on what the group is doing then email us at [altonclimatenetwork@gmail.com](mailto:altonclimatenetwork@gmail.com) and ask to be added to the group's mailing list.

AND if you know anyone else who may be interested please let them know about it, they would be very welcome- we need to come together to tackle this scourge once and for all.
